

MODERN MUSTARD SEED

Your phone, answered. Always.

AI voice agents that pick up every call, in any language.

swipe ->

THE LEAK

Most buyers go with whoever answers first.

Every call that rolls to voicemail is a customer who just dialed your competitor.

IT REMEMBERS

It knows who is calling.

Recognizes returning callers, recalls the last conversation, and greets them by name. Real memory, not a phone tree.

100+ LANGUAGES

It speaks their language.

Detects the caller and replies in their language. English, Spanish, French, Mandarin, Russian, and dozens more.

24/7 SALES REP

Not just a receptionist. A closer.

Answers inbound around the clock, calls back every web lead in seconds, and even runs outbound campaigns.

IT CLOSES

Books, takes orders, upsells.

Real calendar bookings. Full takeout orders straight to your kitchen.
The natural add-on, every time.

EVERYTHING LOGGED

Every call, transcribed.

Both sides, summarized, in one place. Coach your team from real conversations.

Hear it yourself.
