

FORGE UNDER YOUR FLAG

Put your name on the whole build.

A finished AI demo suite, for a business you already know, presented by you. You type in one business. A full suite appears with your flag on it. You forward three lines. When they buy, the commission is yours, and it tracks itself.

PARTNER FORGE

01

ADMIT ONE BUILD

One mint. One warm business. One ledger.

The forge is the same machine our team uses to build a live demo before a sales call. In your hands, it turns a name you trust into a suite that sells itself, with your commission stamped into every checkout from the first click.

You bring the trust. We do the whole build.

Most partner programs hand you a link and wish you luck. The Partner Forge hands you a finished product. You already know business owners who are losing calls, running an ugly website, or drowning in busywork. Now you can hand each of them a real, working demo built for their business, with your name on the front, in about two minutes of your time.

HOW A MINT WORKS

1

Type in a business you know

Their name, a phone number, and their website or Facebook page. That is the whole form. The forge builds only from their real, public information, so you are never inventing anything.

2

A finished suite appears, under your flag

An AI receptionist that answers as their business, a website designed from scratch, and a command center demo. The hub reads "Presented by you, with Modern Mustard Seed." Your referral code is stamped into every checkout on it.

3

Forward three lines

We email you the link and a short, honest hand-off you can send in your own words. They see it real, not as a pitch. If they buy, the commission lands on your ledger automatically. You never touch billing.

SEE ONE THAT IS ALREADY LIVE

A real suite the forge minted, start to finish (receptionist, website, and command center):
modernmustardseed.com/demo/hub/6cda89d9-1803-4247-9d00-e58d8938f6a6

One structure. The same for everyone.

Our prices are fixed and public, and so is what you earn. No tiers you have to negotiate, no fine print that quietly shrinks your cut.

50%
ON EVERY PRODUCT

- Every playbook, bundle, and program pays half the moment someone buys. A \$197 bundle pays you about \$98. Same rate for everyone.

25%
RECURRING, MONTHLY

- Put a business on a 24/7 AI receptionist and earn a quarter of every monthly invoice, for the first twelve months. This is the part that compounds.

10–20%
ON CUSTOM BUILDS

- Send a business that needs a real build and earn 10% of the project, moving up to 20% once you are closing them regularly. These are the biggest checks.

THE HONEST GUARDRAILS

- **Caps, on purpose.** New partners start at three mints a day and ten a week. It keeps the forge for businesses you truly know, not scraped lists.
- **Your first three mints get a human look.** They are held for a quick quality pass before the hand-off email goes out. After three clean ones, that hold lifts.
- **First touch wins.** If a business is already in our pipeline, the forge will not let you claim it. Great instinct, just pick another one you know.
- **Demos are samples, and disclosure is the trust.** Every suite carries the Modern Mustard Seed mark, a business can ask us to take theirs down anytime, and you always say plainly that you earn a commission.

You could forge your first one this week.

1

Apply to the partner program

It takes about a minute at modernmustardseed.com/partners. Sarah reviews every application herself. Approved partners get their link, free access to everything, and the field guide the same day.

2

Sarah lights your forge

Forge access is switched on per partner. Once it is on, the mint form lives inside your Partner HQ, right next to your link and your ledger.

3

Mint one, then forward the hand-off

Type in a business you know. We build the suite and email you the link with three lines to send. That is the whole loop, and it pays you every time it closes.

BECOME A PARTNER

Recommend tools you believe in. Get paid for years.
